

*We are hard at work  
to find the DNA Markers for Epilepsy!*

**The research is moving right along!**

Dr. Ned Patterson at the University of Minnesota and Dr. Hannes Lohi at the University of Helsinki are working to find the genes responsible for epilepsy in the Australian Shepherd and develop a screening test.

**The timing and the tools available have never been better!**

**Please continue to help by donating blood and  
making donations for epilepsy research!**
